ADOBE PHOTOSHOP CC: **INTRODUCTION**

Adobe Photoshop is an industry standard editing software for photographs - at its most basic it is used for resizing, converting and reformatting photos. But it has the potential to create powerful images and amazing photographic effects. You will gain first hand experience of this amazing software in a modern studio which is set in a tranquil, garden setting. The days training can be tailored to your requirements, so feel free to bring along artwork files so your practice can be based on real examples that are specifically connected to your needs. Your tutor is an experienced practitioner in the design industry and holds a Certificate in Education so you will be getting first hand industry knowledge taught by a qualified teacher.

Course duration
1 day - from 10-4pm

Location
Amber Designs, 9 Kings Park
Canterbury, Kent CT1 1QH

Requirements
No previous experience
